

Laptop Requirements

All training participants are required to bring their own laptop to class that meet or exceed these requirements below. Beyond Limits will provide a training VM (virtual machine) with the following specifications:

- 6 GB Ram

Participant laptops must meet the following specifications to run the VM:

- Download and install VMware Workstation Player (free trial): [Download VMware Workstation Player](#)
- Windows 8/8.1/10 (64-bit required)
- Dual Core 2.2 GHz processor minimum
- 8GB RAM minimum
- 100GB free disk space on local HDD
- The laptop BIOS settings must have **vt-x** or **amd-v** enabled
- 1 available USB port (USB 3.0 recommended)
- Complete local administrative rights to the laptop
- USB 3.0 flash drive with 100GB of free space (required only if borrowing a laptop) • Mouse/mousepad (recommended)

Software and Licensing

All software will be provided on the training VM. The training VM will run DocLink 4.0. This may be different than the version you are running in your production environment. Topics covered during training may also include modules that have not been purchased nor deployed in your production environment. The training VM will be licensed for all modules and include five (5) user licenses. Licenses will not be transferable outside the VM environment.
